International application No.

PCT/AU2004/001545

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 1 - 38	YES
	Claims	NO
Inventive step (IS)	Claims 1 - 38	YES
	Claims	NO
Industrial applicability (IA)	Claims 1 - 38	YES
	Claims	NO

2. Citations and explanations (Rule 70.7)

Novelty (N) and Inventive Step (IS)

None of the citations, when considered either singly or in any obvious combination teaches or suggests the invention as claimed. In particular, none of the citations teaches or suggests the common special technical feature of the independent claims, namely that at least a portion of the upper of the shoe comprises a coating which provides a dry co-efficient of friction that exceeds that of standard athletic leather when measured by a modified IUP51 test. This modified test is based on the standard test, but replaces the PTFE reference bed of the standard test by a material, either natural or synthetic, with a polyurethane coating as used in the production of soccer balls.
